## Aqua-clear water conditioner

Protects water baths and other water systems against the growth of algae, bacteria, molds and biofilms.

Just 2 mL per liter of water adds a blue tint which will fade after about 3 months reminding you to change the water and add new conditioner

- Protects pumps and thermostats and helps prevent tubing from clogging
- Permits longer use of water used in developer for color or X-ray films; will not harm film
- Can be added to the water inserted in the Water Jackets of CO<sup>2</sup> and regular incubators.
- Does not contain any substance listed by California's safe drinking water and toxic Enforcement Act of 1986 (Proposition 65)
